

Playback Café

Playback Café is a fully customizable, interactive theatre experience led by an ensemble of performers who “play back” stories given to them by the audience. It creates a sense of community through the power of personal narratives shared in public. It fosters cooperation, fresh perspective, confidence and understanding.

Playback Café, as the name implies, offers an endless menu of fast-paced, hands-on storytelling possibilities, each of which begins with you. It’s your story told well, your ideas made memorable, your options examined safely and effectively.

In the boardroom, in the classroom, in places that might surprise you, Playback Café is using tried and true theatrical techniques to improve communication, explore potential, resolve conflict and achieve real-world goals.

Really.

Playback possibilities

Corporate

- Diversity training
- Team building
- Conflict resolution
- Safety
- Sales

Marginalized groups

- Homeless
- At-risk youth
- Recovering addicts
- Prisoners

Survivors of trauma

- Victims of abuse and bullying
- Veterans

Café prices vary depending on menu items chosen. We bring the Café to you, of course, and can work with groups of any size involving participants in any way desired.

Life, while it is happening to us, can seem random and undirected. It's often only when we tell the story of what happened that some order can emerge from the abundant jumble of details and impressions.

Jo Salas, Founder, Playback Theatre
